What made this quiz app fun/not fun to play?
It was so fun! Enjoyed the challenge trivial quiz, also good for learning more about nz native birds!

Was everything straight forward?
Very easy and straight forward to understand

What parts of the app were well designed?
The quiz questions layout, the home menu and the bird info area, all very well designed, and easy to swipe between them all.

What made these designs good?
Pretty colors and design that match the app, very pretty and wonderful layout

What was good/bad about the per answer result feedback?
Gives you a nice clean score, very straight forward, and I like that it didn't say anything like "better luck next time" for when I only got 2/5

What about the gesture navigation (swiping to go between the menu and infographic) is good or can be improved?
may just need when first downloading the app like a guide that tells you that you need to swipe to see different screens

Do you prefer navigating with the buttons, gestures, or both?
Both, good amount of swiping between screens, then the buttons are easy to understand and also makes it easy for anyone who struggles to understand technology could use (great app for old people to test their knowledge)

Were the pictures themselves clear and identifiable?
Yes! Beautiful bird photos, love them all

How did you find the quiz length?
Great! Good for a quick quiz and good for people with short attention spans (a lot of people especially now cause of vine and now tik tok ahah)

How confident between 0 – 10 (not confident, very confident respectively) are you with identifying New Zealand's native birds? 10 now only because of doing the quiz a lot now! Before the quiz a solid 3

Was the content presented within the quiz unknown and/or informative?
Nope it was formal and clear, very straight forward and easy to understand.

Did/would you find this application advantageous to expand your knowledge about New Zealand birds?
YES! I learnt a lot that I didn't know, and it's a fun active way to learn.
